

The Helmet Doctors

Providing Safer Motorcycle Helmets... Providing patented approved **Helmet Scanning Technology** identifying invisible structural defects **100,000x** better than the naked eye, using innovative advancements in Laser Technology.

"BUY NOW" - HELMET SCANS

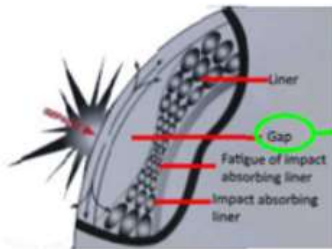

HELMET INTEGRITY CHECK

What is the problem?

- ▶ Helmets may sustain damage that is not visible to the naked eye
- ▶ Continued use of helmet may lead to unnecessary serious injury

Impact showing damage to internal EPS foam meaning there is most likely also damage to shell

The Solution

Our Solution is a **High-Resolution Camera** combining the principles of **Holographic Interferometry** and **Photorefractive Crystals**.

This simply means:

Our Solution – consists of providing innovative advancements, and scientifically proven laser scanning technology that will **Identify, Read, Record & Measure Deformations** caused by impacts on Motorcycle & Motorsport Helmets.

Our Solution – remain the Industry leader in helmet laser scanning, providing the most cutting-edge technology and techniques. To continuously collaborate with our supporting partners to provide & **Set The Benchmark** at the highest level of helmet defect detection within the Non-Destructive Testing industry.

Our Solution – is added safety & protection to **Save Lives** by reducing the risk of preventable brain injuries (TBIs) & premature deaths to Motorcyclists & Motorsport participants around the world.

Our Solution – provide **Peace of Mind** & the **Knowledge** your helmet is safe for continued use, allowing for safer more enjoyable experiences within the Motorcycling & Motorsport Communities.
